## In Person and Virtual Legal Resources

- **Court Service Centers**

Court Service Centers can help people navigate the court system. Centers are available to all court users without lawyers, and there are no income or immigration status requirements. All services in the Court Service Centers are free, but there may be other fees associated with your case, such as filing fees. For more information about locations of the Court Service Centers and what services they can provide visit: <https://www.mass.gov/info-details/learn-about-court-service-centers>

These services are available in person at some courthouses and virtually through ZOOM or telephone. For more information about the Virtual Court Service Center visit:

- **Lawyer of the day programs at Probate and Family Courts**

The Lawyer of the Day provides:

- Consultation and assistance with completing court paperwork;
- Does not go into the courtroom to represent litigant;
- No lawyer-client relationship established;
- Cannot assist anyone who is represented by an attorney

To see a lawyer of the day on a specific date, check with the court division/location you plan to visit that day or the day before to be sure a lawyer is scheduled to appear.
